DR. JAMES T. ARIS, DMD, FAGD, PC
FELLOW OF ACADEMY OF GENERAL DENTISTRY
WILTON CENTER FAMILY DENTISTRY
67 OLD RIDGEFIELD ROAD . WILTON . CT 06897
203 . 762 . 5100

Excellence in dentistry is the first commitment of Dr. Aris and his professional staff. Confirming this commitment, Dr. Aris attained the distinct honor of Fellow from the Academy of General Dentistry. "A general dentist who is a Fellow," states the Academy, "has accepted the charge to keep abreast of advances in dentistry for the benefit of patients and the betterment of dentistry." To earn a Fellowship, a dentist must earn a minimum of 500 approved dental education credits and pass a comprehensive 400-question examination. Dr. Aris joins an elite group of less than 5% of general dentists to achieve this award.

Dr. Aris is a graduate of the University of Pennsylvania Dental School where he received his Doctorate of Medical Dentistry. **Recently, he has been recognized by the International Association of Dentists as a Leading Physician of the World and Top General & Cosmetic Dentist.** A believer in life-long learning, Dr. Aris is a founder of the Wilton Dental Study Group launched 19 years ago. He is a member of the American Dental Association, Academy of General Dentistry, CT State Dental Society, American Academy of Cosmetic Dentistry, and past President of the Greater Norwalk Dental Society.

Dr. Aris offers state-of-the-art E4D's NEVO technology. E4D is a chairside CAD/CAM system for digital impressing, designing and fabricating one-day metal-free inlays, onlays, crowns and veneers. Ask Dr. Aris about this innovative technology!
